

Mathematicians won the war. Mathematicians broke the Japanese codes- and built the A-bomb. Mathematicians... like you. The stated goal of the Soviets is global Communism. In medicine or economics, in technology or space, battle lines are being drawn. To triumph, we need results- publishable, applicable results. Now who among you will be the next Morse? The next Einstein? Who among you will be the vanguard... of democracy, freedom, and discovery? Today, we bequeath America's future... into your able hands. Welcome to Princeton, gentlemen. It's not enough Hansen won the Carnegie Scholarship. No, he has to have it all for himself. It's the first time the Carnegie Prize... has been split. Hansen's all bent.
